Open Source, Data & Postgres

An Enterprise View

Gautam Khanna

VP & Head - Modernization Practice, Infosys

OPEN SOURCE HAS COME A LONG WAY AND THE POSSIBILITIES ARE ENDLESS

FOSS is no longer a four letter word for enterprises

Enterprise adoption of Open Source is mainstream

95%

Companies say Open Source is **important** to their enterprise[#]

60%

Clients say #1 challenge is *Huge cost incurred to maintain and upgrade monolith systems built on proprietary technologies[^]*

60%

Companies say Open Source is being used for IT Modernization[#]

WE HAVE PLAYED A KEY ROLE IN CONVERTING THE NON BELIEVERS...

Before

10.7 OS/DB/SW Requirements					
Please provide the details around the prerequisites from OS/DB and Software license as a base for the provided solution to work. Offered solution component licenses and details need to be provided separately. As per [REDACTED] guidelines we do not prefer any open source component in the solution, however the only acceptance is based on last resort option with additional controls and assurances from the provider and will be approved explicitly by [REDACTED]					
S/N	Component (OS/DB/SW/App etc)	Environment	Recommended Platform	License Type	License Quantity

2017 RFP - Redacted

After

SI#	Layer	Recommendation
1	Core GRC product	MetricStream
2	UI/Portal	Liferay
4	BPM	jBPM
5	Document Management	IBM FileNet
7	Database	PostgreSQL
8	Reporting	QlickView
9	OS	RHEL

Final approved solution stack

GSTN STACK – Largest Open Source grounds-up development project in the country

Needed to replace
30+ indirect taxes
with uniform tax laws
across states

6.4 m tax payers
migration from
existing tax regime

15 m tax payers to
file taxes in the new
system

50% of filing on last
day – 1,2 B invoices

Used Open Source
technologies with light
weight platform

Platform based architecture
with faceless engine
exposing API for
consumption

Key design principles –
Platform approach, SEDA
and distributed everything

End-to-End DevOps pipeline
built on Jenkins, Maven,
Docker etc..

151 BUSD

Tax collection over
18 months

110 k

Concurrent users with
<2 seconds response
time

**Highly
ranked site**

75 on
SimilarWeb.com and
140 on alexa.com

70 m

page visits and
return filings

Zero RPO

And a 30 minutes
RTO to provide a
robust DR solution

Navigate your next

...BUT THE ADOPTION MATURITY VARIES...

...AND
ORGANIZATIONS ARE
FACING CHALLENGES
IN THEIR
MODERNIZATION
JOURNEY

INFOSYS IS TAKING A STRATEGIC VIEW OF OPEN SOURCE AND POSTGRES IN PARTICULAR

32,000+

Employees trained
on Open Source

2019

6300

Projects executed
on Open Source

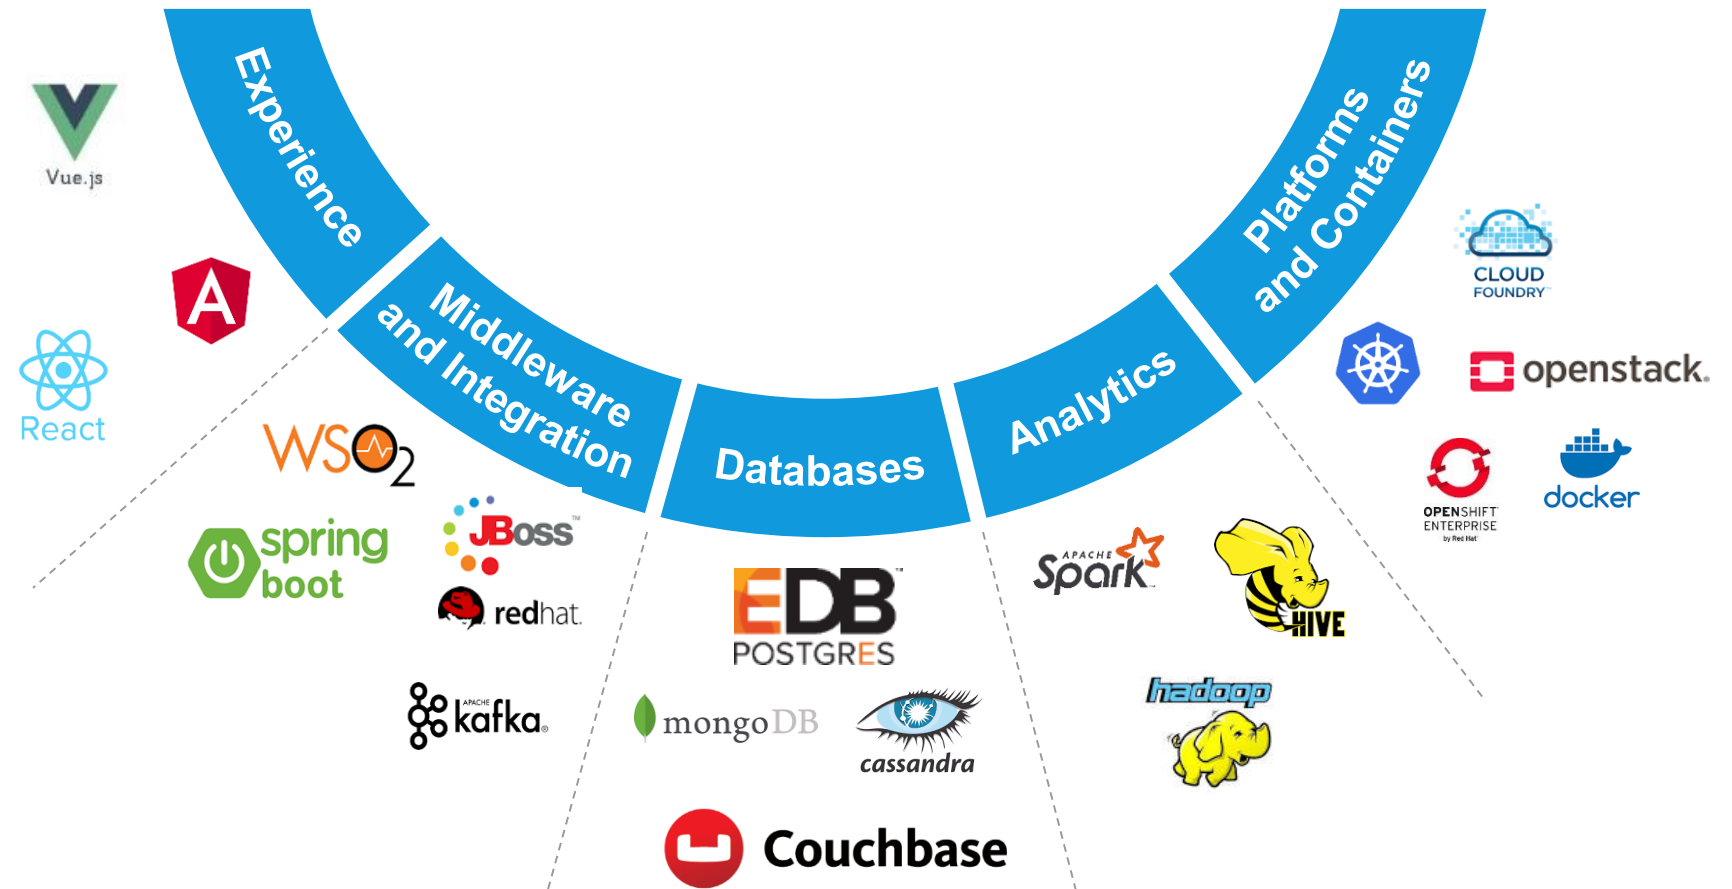

1000+

Contributions
to Open Source

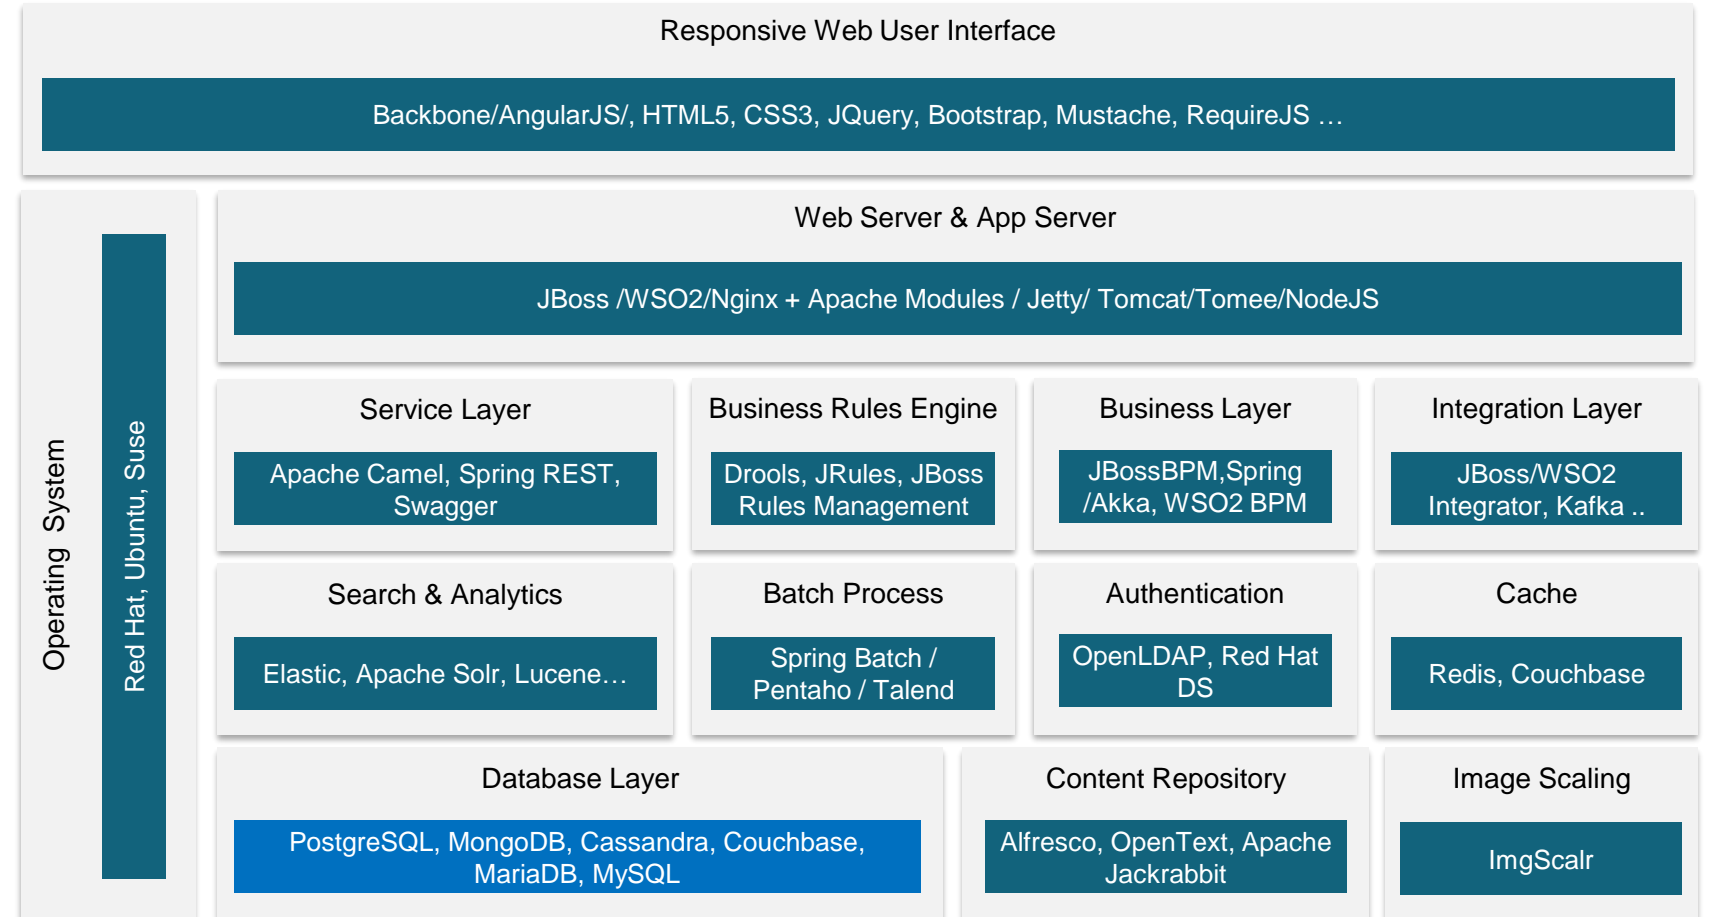

WE SEE THE
COMPLETE PICTURE

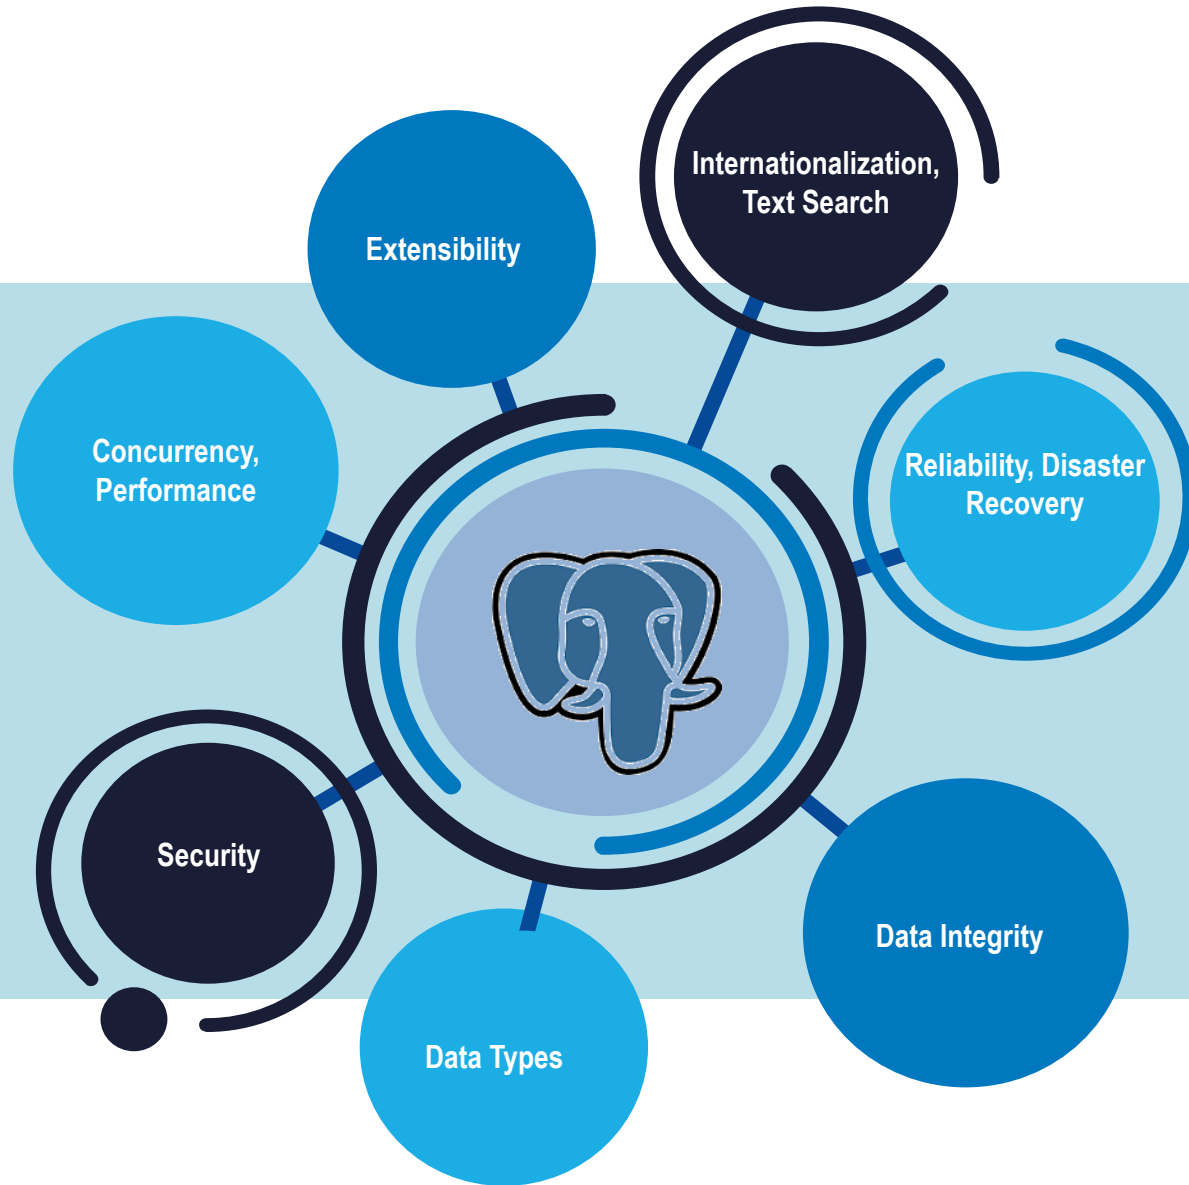

...THAT REQUIRES
BOTH BREADTH
AND DEPTH OF
TECHNOLOGY
KNOW-HOW

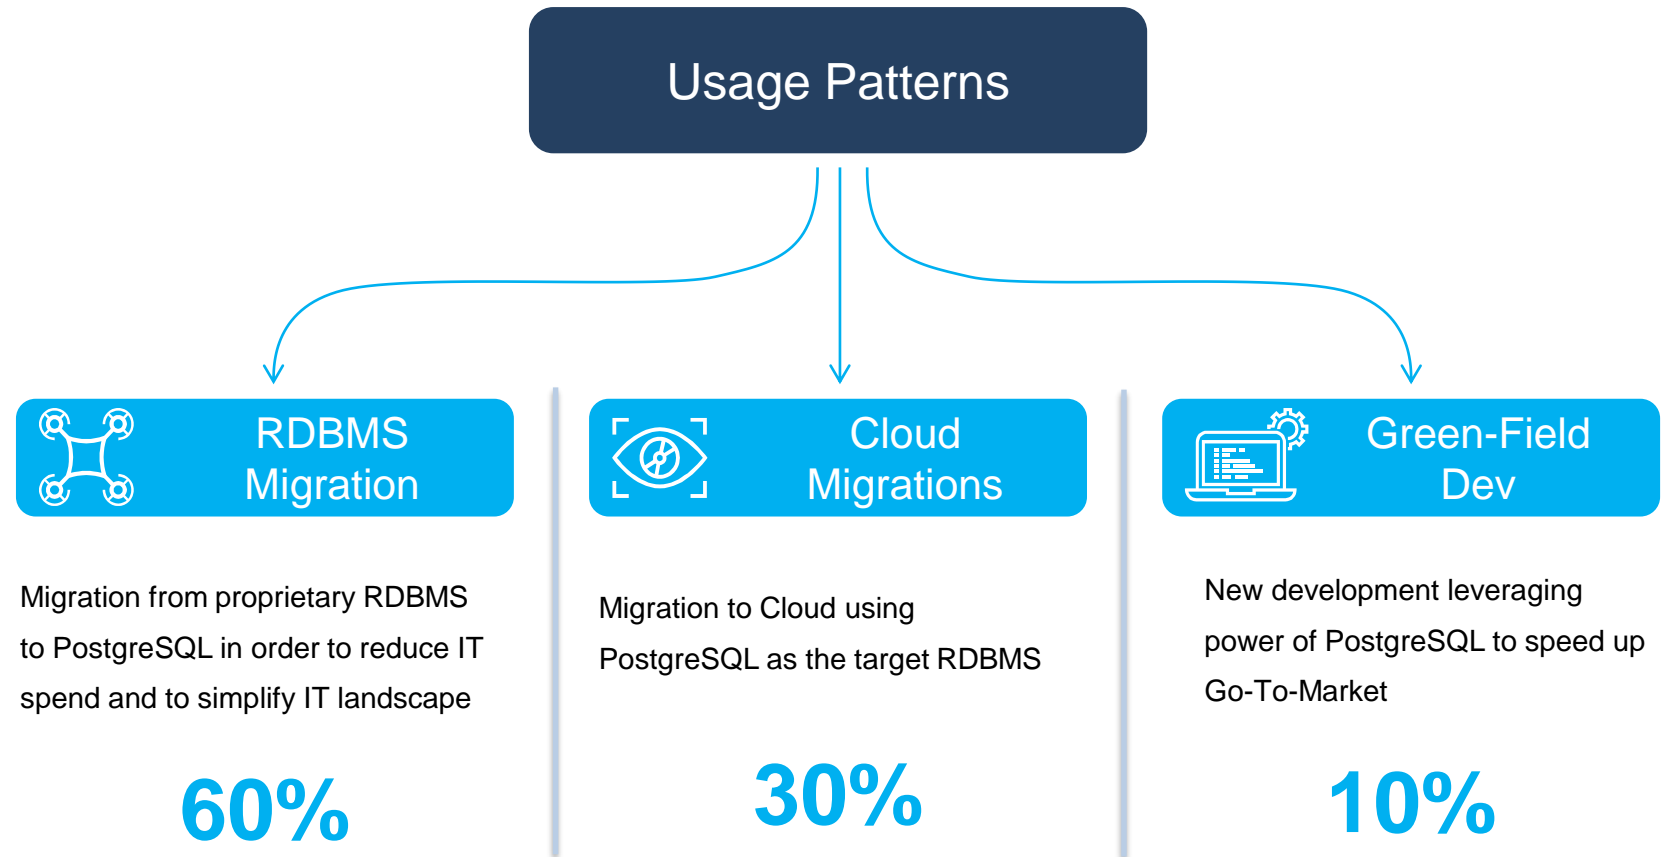

OPEN SOURCE INNOVATION IS VERY STRONG IN THE DATABASE LAYER

POSTGRES IS PROPELLING THE OPEN SOURCE RDBMS REVOLUTION IN G2K ENTERPRISES

WE ARE SEEING THREE MAJOR PATTERNS IN G2K ADOPTION OF POSTGRES

SOME KEY EXAMPLES

Asia-based financial services group

- Core banking application running on-prem with proprietary database
- Needed to be made cloud-native
- Implemented oeCloud version of Finacle

80%

Reduction in database licensing costs by moving to EDB Postgres

SOME KEY EXAMPLES

High-speed broadband network provider

- Cloud migration for geospatial system that supports network planning
- Storage capacity size of data to be initially 4 TB with upper limit of 100 TB, Number of concurrent users ~550.

500K AUD

Annual cost savings by choosing RDS Postgres

30%

Increase in performance of system

SOME KEY EXAMPLES

Oilfield services company

- In-house system for monitoring oil rig performance
- Database centric application with extensive usage of Packages; Procedures; Functions; Triggers; Advanced Queues

\$ 400K

License cost savings per year on every instance of the application

\$ 3M USD

Cost saving annually by enabling eventual movement to Cloud

INFOSYS IS INVESTING HEAVILY *IN TOOLS THAT HELP CLIENTS OVERCOME SOME OF THE BIGGEST HURDLES IN MOVING TO POSTGRES*

Infosys Data
Cruise

Infosys Code
Impact
Analyzer

Infosys Data
Testing
Workbench

AND OUR PARTNERS HELP SOLVE SOME OF THE OTHER CHALLENGES

Who do I call at 2 AM?

Can I avoid
the code conversion heavy lift?

What about Enterprise
features like monitoring,
failover and replication?

OUR PROMISE TO OUR CLIENTS

60-90%

saving on
license cost

30-60%

saving on migration
effort

Minimal

vendor lock-in

OPEN SOURCE MOVEMENT – A JOURNEY WITH ENDLESS OPPORTUNITIES

The trouble with the world is that the stupid are cocksure and the intelligent are full of doubt.

[Bertrand Russell](#)

THANK YOU
